

# BEKA RUBBER

Flooring that meets your needs

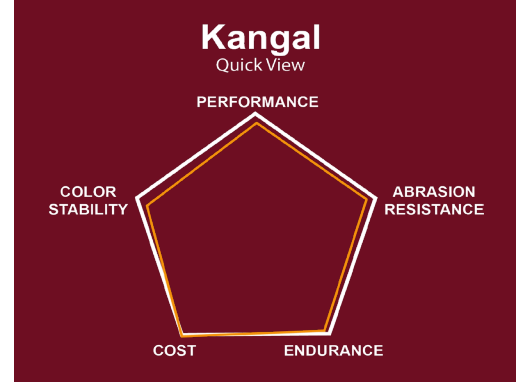

Technical Data Sheet: Kangal  
Revision: Dec 2021

## Kangal

Welcome to the future of recycled rubber. Forget what you knew about it. **Kangal** series brings a new concept to rubber tiles. 100% non-porous surface for superior resistance and long-term use. Meet the product selected by the most demanding clients, like Boutique Fitness centers, Luxury Hotel Gyms, Personal Fitness centers, etc.

**Kangal** series, named after the most trustworthy and fearless Turkish (make it one word!) shepherd dog, takes rubber tiles to a whole new level. Forget about health issues, quality of the air in indoor facilities, even safety concerns in case of fire.

Thanks to a new combination and a new production method developed by Beka engineers, **Kangal** series offer a never seen before performance which makes recycled rubber flooring not a good choice but the perfect one.

### COMPOSITION

Especially selected SBR recycled rubber, high quality polyurethane bonding agent, color pigments.

### SPECIFICATIONS

Usage	Indoor
Size	100x100 cm
Thickness	20mm
Color	■
Surface	Non Porous, soft
Density	950-980 kgs/m <sup>3</sup>
Weight/m <sup>2</sup>	18 kg (20 mm)
Hardness	60 ± 3 Shore A
